List four fun things to do around Dubrovnik for someone interested in small museums

Dubrovnik offers a variety of small museums that are perfect for someone interested in history, art, and culture. Here are four fun options to explore:

1. **War Photo Limited:** This unique photography museum focuses on the impacts of war, especially conflicts in the former Yugoslavia. The thought-provoking exhibits present powerful images that give insight into the region's turbulent history.
2. **Rector's Palace:** A blend of Gothic, Renaissance, and Baroque architecture, this historic palace now houses a museum with fascinating exhibits on Dubrovnik's political history. The small museum inside offers a glimpse into the city's governance during its time as a republic.
3. **Maritime Museum:** Located within the impressive St. John Fortress, this museum offers a deep dive into Dubrovnik's rich maritime history. Exhibits include ship models, navigational instruments, and documents that tell the story of the city's seafaring past.
4. **Ethnographic Museum (Rupe Museum):** Housed in an old granary, this museum explores traditional rural life in Dubrovnik and the surrounding region. Exhibits include traditional costumes, tools, and everyday items, offering a fascinating glimpse into local customs and traditions.

Each of these museums offers a unique perspective on Dubrovnik's history and culture, making them excellent choices for a museum day out.

## ChatGPT

Jonathan Soma is a multifaceted programmer, educator, and data journalist with a strong focus on making complex data accessible. He is recognized for his work in creating maps, processing data, and crowdsourcing stories alongside reputable organizations such as ProPublica, WNYC, and The New York Times. In 2009, Soma co-created Big Apple Ed, a web application that analyzed NYC school data, earning third place in New York City's first annual Big Apps contest.

Currently, Soma holds the position of Knight Chair in Data Journalism and directs the LEDE Program at Columbia University, where he develops tools and curricula to aid newsrooms in their reporting processes. He also runs a "fake school" in Brooklyn and co-hosts a semi-monthly lecture series on food science and culture called Masters of Social Gastronomy, which is complemented by an infrequently updated podcast. Soma's diverse interests and contributions to both journalism and education highlight his commitment to enhancing the understanding and accessibility of data [1] [2].

cheese not sticking to pizza

All Images Videos Forums Shopping News Well

AI Overview

Cheese can slide off pizza for a number of reasons, including **too much sauce, too much cheese, or thickened sauce**. Here are some things you can try:

- Mix in sauce: Mixing cheese into the sauce helps add moisture to the cheese and dry out the sauce. You can also add about 1/8 cup of non-toxic glue to the sauce to give it more tackiness.
- Let the pizza cool: The cheese will settle and bond

There is one big thing holding the United States back from a pollution-free electricity grid running on wind, solar and battery power: not enough power lines.

JS "Acarajé, abará, moquecas, compotas, licores... Essas e outras delícias do nordeste." what's the first few words mean

Let me translate and explain those first few words for you:

"Acarajé, abará, moquecas, compotas, licores..."

These are all types of food and drink, primarily associated with northeastern Brazilian cuisine:

1. Acarajé - A deep-fried ball made from mashed black-eyed peas, typically filled with shrimp and other ingredients.
2. Abará - Similar to acarajé, but steamed rather than fried, often wrapped in banana leaves.
3. Moquecas - Traditional Brazilian fish stews.
4. Compotas - Fruit preserves or jams.
5. Licores - Liqueurs, often made with local fruits.

The phrase as a whole is listing some of the specialties and delicacies of northeastern Brazilian cuisine that the restaurant likely serves. The ellipsis (...) at the end suggests there are more items beyond these examples.

The full sentence "Essas e outras delícias do nordeste" means "These and other delights from the Northeast," indicating that these items represent the northeastern Brazilian culinary traditions offered by the restaurant.

JS is northeast food bahian?

Northeast Brazilian cuisine and Bahian cuisine are related but not exactly the same:

1. Northeast Brazil (Nordeste) includes nine states: Bahia, Pernambuco, Ceará, Maranhão, Paraíba, Rio Grande do Norte, Alagoas, Sergipe, and Piauí.
2. Bahia is one state within the Northeast region, known for its particularly distinctive and influential cuisine.
3. Bahian cuisine is a subset of Northeastern cuisine, but it's often considered the most famous and representative of the region due to its unique flavors and African influences.
4. Many dishes mentioned (like acarajé, abará, and moqueca) are strongly associated with Bahian cuisine specifically.
5. However, other Northeastern states also have their own culinary specialties that may differ from Bahian cuisine.

So while Bahian food is Northeastern, not all Northeastern food is specifically Bahian. That said, in popular culture and in many restaurants outside the region, "Northeastern cuisine" often heavily features or focuses on Bahian dishes due to their popularity and distinct flavors.

An act to add Title 23 (commencing with Section 886) to the Civil Code, relating to journalism.

LEGISLATIVE HISTORY

AB 886, as amended, was introduced by Assembly Member Buffy Wicks on June 26, 2024. Existing law generally requires, on a semiannual basis and as specified, a social media company to submit to the Attorney General a terms of service report that includes, among other things, the current version of the terms of service of the social media platform. This bill, the California Journalism Preservation Act, would require a covered platform, as defined, to either pay at least \$\_\_\_\_ annually to compensate digital journalism providers, as defined, for accessing the

The Associated Press and OpenAI have reached an agreement to share access to select news content and technology as they examine potential use cases for generative AI in news products and services.

The arrangement sees OpenAI licensing part of AP's text archive, while AP will leverage OpenAI's technology and product expertise. Both organizations will benefit from each other's established expertise in their respective industries, and believe in the responsible creation and use of these AI systems.

The collaboration builds upon AP's efforts over nearly a decade to use

Workshopping ideas?

...but...

We also look at the similarity of any one story to the "mass" of all stories within the same condition by computing the cosine similarity of the embedding of the focal story with the average embedding of all other stories in the same condition. Our results show that having access to GenAI ideas makes a story more similar to the average of other stories within the same condition (*Human with 1 GenAI idea*  $b=0.871$ ,  $p<0.001$ ; *Human with 5 GenAI ideas*  $b=0.718$ ,  $p=0.003$ ).

Despite the enhancement effect that GenAI had on average creativity, we also believe our study offers a cautionary note if GenAI were adopted more widely for creative tasks. In general equilibrium, an interesting question is whether the stories enhanced and inspired by AI will be able to create sufficient variation in the outputs they lead to. Specifically, if the publishing (and self-publishing) industry were to embrace more GenAI-inspired stories, our findings suggest that the produced stories would become less unique in aggregate and more similar to each other—an effect that may be heightened over time, as many GenAI models use the existing corpus of text and published literature to train and refine their algorithms and predictions, thus further reducing diversity. Initial evidence suggests that GenAI models trained with GenAI content become
